If the trip is delayed due to an insured event for reasons beyond the control of the insured person, the insurance cover is automatically extended by 48 hours.

Insurance contract consists of an insurance policy (hereinafter the **Policy**) and these travel insurance terms and conditions (hereinafter the **Terms and Conditions**).

Accident insurance

An insured event of accident insurance is an accident which occurred with the insured person when travelling abroad within the area covered by the insurance, as a result of which:

- the insured person dies within one year of the occurrence of an accident;
- the insured person develops a permanent disability within one year of the occurrence of an accident.

2.27. The sum insured for accident insurance is:

- in the case of permanent disability, 50,000 euros;
- in the case of death (person over 16 years of age), 50,000 euros;
- in the case of death (person under 16 years of age), 2,000 euros.

2.28. Death benefit

The amount of the death benefit is the sum insured for accident insurance. The death benefit is paid to the heirs of the insured person if the insured person dies as a result of the insured event of accident insurance within one year of the date of the insured event. The death benefit is reduced by the amount of the permanent disability indemnity previously paid for the same insured event.

2.29. Permanent disability indemnity

LHV pays a permanent disability indemnity to the insured person if their health condition has permanently deteriorated due to the insured event. The permanent disability indemnity is paid as a percentage of the sum insured of the accident insurance, based on the condition of the insured person one year after the occurrence of the insured event.

- Permanent disability indemnity is 25% of the sum insured for accident insurance, if one year after the insured event the insured person mostly does not need outside assistance, but their general ability has significantly

decreased: they have impaired memory, speech and communication difficulties, loss of movement accuracy, imbalance, rapid fatigue and other conditions aggravating or obstructing everyday activities.

- Permanent disability indemnity is 50% of the sum insured for accident insurance if one year after the insured event, the insured person is only able to perform light and short-term activities, their ability is significantly reduced and they are dependent on the assistance of another person for some daily activities (such as eating, washing, dressing, movement inside or outside the home, etc.).
- Permanent disability indemnity is 100% of the sum insured for accident insurance if one year after the insured event, the insured person unavoidably needs the assistance of another person in performing all daily activities (such as eating, washing, dressing, moving around).

2.30. The existence and degree of permanent disability caused by the insured event is determined no later than within one year as of the occurrence of the insured event, based on the health condition of the insured person at that time. If the permanent disability is the result of the loss of a body part or an organ that does not regain function (for example, amputation), the existence and extent of the permanent disability will be determined as soon as possible after the insured event.

2.31. Permanent disability is determined by comparing the insured person's state of health with that of a healthy person of the same age, taking into account only the severity and nature of the disability and not the insured person's individual characteristics, including lifestyle, occupation or hobbies. The existence and degree of permanent disability is established on the basis of medical documentation. In addition, the condition of the insured person prior to the insured event of the accident insurance is taken into account.

Loss of capacity for work and loss of income are not accounted for when establishing permanent disability. The degree of disability established by a national expert's decision is not binding on LHV when establishing permanent disability.

Conduct in the case of an insured event of accident insurance

2.32. In the case of an insured event of accident insurance, conduct follows the operating instructions set out in clauses 2.13–2.16 of the Terms and Conditions of an insured event of medical assistance insurance.

Exclusions from accident insurance

2.33. LHV will not compensate damage if the death or permanent disability was caused or aggravated by:

- the insured person's illness (the insured event is not death or development of a permanent disability due to illness);
- any medical procedure, including surgery (the exemption does not apply if the cause of the medical procedure is the insured event that occurred abroad during the validity of the conditions);

2.34. LHV will not pay permanent disability indemnity:

- in the case of damage to the insured person's teeth or prosthetics;
- if the permanent disability appears later than within one year after the insured event;
- if the insured person dies as a result of the insured event within one year from the date of the insured event. In such case LHV pays a death benefit.

Baggage cover

3. Insured baggage is the personal belongings of the insured person when travelling.

3.1. An insured event of baggage cover is represented by the following events that occur during the period of validity of the insurance with the insured baggage in the insured area.

- **Damage, destruction, theft, or robbery of baggage as a result of an unexpected and unforeseen event**

- **Loss of baggage due to the fault of the transport company**

Baggage will be considered lost if it does not reach the insured person within 21 days of the originally scheduled arrival time.

Durable goods (items intended for long-term use, such as clothing, footwear and sports equipment) purchased due to baggage delay must be surrendered by the insured person to LHV after reimbursement, if LHV so wishes.

- **Identity document, visa, or vaccination certificate lost or destroyed with baggage**

- 3.3. In the case of damage to property, LHV will reimburse the cost of repair thereof. If the property is destroyed or damaged in such a way that it cannot be repaired, or the baggage has been stolen, robbed or lost due to the fault of a transport company, LHV will reimburse the cost of repurchasing an equivalent item.
- 3.4. If it is not possible to determine the repurchasing cost of the item, the insurance benefit is determined based on the purchase price of the item. Depreciation in the value of the item over time at a rate of 10%–30% of the purchase price per year is deducted from the purchase price.
- 3.5. In the case of baggage damage compensation, a deductible of 200 euros applies to smart devices, photo and electronic equipment, and their accessories.
- 3.6. If LHV has reimbursed the baggage and it is found, the insured person must notify LHV of the baggage being found as soon as possible.
- 3.7. LHV will not arrange for the repair of the item, the acquisition of a replacement item, or the transfer of the item to the insured person.

Conduct in the case of damage to baggage

- 3.8. In the event of damage to baggage, the first step is to contact the transport or accommodation company or other service provider responsible and submit a claim for compensation.
- 3.9. Upon baggage delay, the policyholder must present to LHV a certificate on the delay of baggage along with cost documents for purchasing or renting essential items.

- 3.10.** If the baggage damage was caused by a transport or accommodation company, a storage service provider or other service provider, LHV must be provided with a certificate from that company stating the cause of the baggage damage.
- 3.11.** Theft or robbery of baggage must be immediately reported to the police. A police certificate regarding the circumstances of the event must be presented to LHV.
- 3.12.** LHV has the right to demand the submission of additional evidence (such as invoices for the repair of items, photographs, additional explanations).

Safety requirements for the storage of baggage

- 3.13.** Baggage must be stored under constant supervision or in a locked room.
- 3.14.** Items left in a vehicle must be placed there in such a way that they do not attract attention. When leaving the vehicle, all of the windows and the sunroof must be closed, doors locked, and security devices activated.
- 3.15.** When unsupervised, a bicycle must be locked to a strong base.
- 3.16.** The following is a list of items that must be carried in hand baggage and may not be placed in the hold of an aircraft, ship, bus or train, or left unattended in a vehicle, but must be under the uninterrupted and immediate supervision of the insured person or in a safe or supervised storage room in the accommodation establishment:

Liability insurance

- 4.** Liability insurance covers damage to property and personal injury which the insured person has unlawfully caused to a third party abroad during the term of the insurance and which the insured person must compensate because they are guilty of causing the damage or responsible for causing it under legislation. LHV pays the insurance benefit for a loss event for which a written claim for indemnification has been submitted to the insured person. The sum insured for liability insurance is 100,000 euros per insured event.
- 4.1.** Third party claims that have occurred abroad that are related to damage to sports equipment, premises, apartments, or buildings owned by the injured party but in possession or use of the insured person are insured in the extent of up to 2,000 euros.
- 4.2.** LHV reimburses any direct proprietary damage caused to the third party as a result of the insured event and legal costs of the insured person arising from the insured event which are directly necessary for resolving the proprietary damage claim presented to the insured person.

Conduct in the case of an insured event covered by liability insurance

- 5.1. In the event of an insured event covered by legal costs insurance, LHV will compensate the bail in the extent of up to 5,000 euros in accordance with the decision of a court or other competent authority and reasonable and/or necessary legal costs, considering the circumstances of the case, the complexity of the legal dispute, the amount of the claim and the standard price of such services in the country.
- 5.2. In the event of a bail refund, the insured person is obligated to repay it to LHV within ten days of the bail refund. The insured person must immediately notify LHV of the return of the bail.
- 5.3. When the need for legal assistance arises, it must be reported to LHV immediately, proceeding according to LHV's instructions.

- 5.5. The sum insured for phone calls is 200 euros for all calls made during a single trip.

Rental car deductible insurance

6. An insured event is the theft, robbery, destruction of or damage of a rental vehicle rented in a foreign state, the rental contract of which specifies the insured person as its driver, due to which the insured person must compensate the lessor for loss caused by damage to the rental car to the extent of the insurance deductible under the insurance contract.
- 6.1. The sum insured for the rental car deductible insurance is the amount actually required as insurance deductible in the insurance contract of the rental car, but not more than 2,000 euros. 7. Rental car deductible insurance applies to the following types of rental cars:

- 7.3. a vehicle of category O1 and O2 or similar (trailer with a maximum mass not exceeding 3.5 t).
8. The insurance is valid if the rental car is covered by motor own damage insurance. The minimum required cover is the accident insurance cover, which is usually stated in the rental contract as *Collision Damage Waiver (CDW)*, *Loss Damage Waiver (LDW)* or *Physical Damage Waiver (PDW)*. The sum insured for the rental car deductible insurance is the sum actually claimed up to the insurance deductible provided for in the rental car insurance contract, but not more than 2,000 euros.

EXAMPLE. If the insured person's liability to the car rental company is 3,500 euros as a result of an insured event, LHV will indemnify 2,000 euros. The remaining 1,500 euros is the responsibility of the policyholder, unless they have taken out an additional insurance contract with the lessor.

- 8.6. Only a person who is entitled to drive in the country where the car is used is and has a valid driving licence is allowed to drive the rental car.

8.11. Participation in competitions and races

LHV will not compensate damage caused by the use of a rental car in a competition or a race or in the practice thereof, regardless of whether or not it was lawfully organised.

- the insured person and/or their travel companion;

Principles for the compensation of sports cover

- 9.1.** The insurance benefit depends on the number of days the sports track or facility was closed due to the insured event or the number of days the insured person was unable to engage in sports due to illness or injury. The insurance benefit is calculated separately for each insured person for whom a ticket was purchased. The amount of the insurance benefit is up to 50 euros per day per insured person.
- 9.2.** In the event of theft, unexpected destruction or damage to sports equipment, LHV will compensate the insured person for the cost of repairing the item or, if it is not economically feasible or possible to repair the item, the market value of the item, but not more than 500 euros.
- 9.3.** The market value of an object is deemed to be its market value in Estonia, except in the case of rented or leased objects, where the market value is deemed to be the amount claimed by the grantor or lessor.
- 9.4.** If it is not possible to determine the market value of the item, the basis for determining the insurance benefit is the purchase price of the item minus the decrease in the value of the item over time at a rate of 10–30% of the purchase price per year.

Exclusions from sports cover

- 9.5.** LHV will not cover damage caused by the closure of a sports track or facility if the insured person purchased a ticket for its use after the information about the closure of that track or facility was published or after being informed of the occurrence of the event that caused the closure of that track or facility or after the occurrence of illness or injury of the insured person.

In the case of war between permanent members of the United Nations Security Council, the war exemption is applied immediately at the start of the war and the 14-day insurance cover does not apply.

General principles for indemnification

12. In the case of an insured event, LHV will compensate direct and justified expenses for the restoration or replacement of insured items and other expenses on the basis of the following Terms and Conditions.
- 12.1. LHV will make a decision on the compensation of direct damage within ten working days of receiving all the necessary information on the loss event and the amount of damage. If, for reasons beyond LHV's control, it is not possible for LHV to determine the full amount of the damage, LHV will first compensate that part of the damage for which the extent is clear. LHV may extend the deadline for making a decision on indemnification for damage for good reason.
 - 12.2. LHV has the right to request documents and information related to the loss event from third persons.
 - 12.3. The right to receive the insurance benefit is held by the insured person or a company providing a service to them, such as a travel agency, medical facility, etc.

- 12.4. LHV determines the method for the compensation of damage, which may be the repair of a damaged item, replacement with an equivalent item, or financial compensation, and LHV may also choose a repair company or a place from which an equivalent item is procured upon replacement. The corresponding solution can be arranged and ordered by LHV.
- 12.5. LHV has no obligation to compensate the value of the remaining part of the insured object. If LHV reimburses the costs of replacing the insured object, LHV has the right to the ownership of the replaced object.
- 12.6. If the insured person wishes to keep the destroyed object in their ownership, the insurance benefit will be reduced by the value of the property after the insured event.
- 12.7. Other costs specified in the Terms and Conditions will be reimbursed by LHV on the basis of a document certifying the amount of such costs to a reasonable and justified extent.

Obligations of the insured person

- 13. The insured person is obligated to:
 - 13.1. do everything in their power to prevent the insured event and reduce possible damage, to avoid the possible increase of the insurance risk and not to allow the persons who use the insured property to increase the insurance risk;

 - 14.2. after receiving the notice of loss, inform the insured person of which documents must be submitted to LHV in order to determine the cause and amount of the loss;
 - 14.3. compensate the damage caused due to the insured event or pay the agreed amount of money or the insurance benefit in whole or in parts, or fulfil the conditions in another agreed manner. LHV will pay the insurance benefit within a reasonable time after the completion of the claims handling operations and the indemnification decision. If LHV delays with the performance of a financial obligation, it is required to pay default interest at the rate provided in the Law of Obligations Act;
 - 14.4. reimburse, where an obligation to compensate for loss or damage arises, inter alia, the costs incurred by the insured person in determining the loss or damage and its amount. LHV does not have to compensate the insured person for the costs of hiring an expert or adviser if the insured person was not obligated to hire an expert or adviser according to the conditions.

Refusal to compensate or reduction of compensation

- 15. LHV has the right to refuse compensation or reduce the insurance benefit if:

 - 15.3. the damage has occurred to an object that is not insured under the Terms and Conditions;
 - 15.4. the insured person has not complied with a safety requirement or obligation set out in the Terms and Conditions and there is a causal link with the occurrence of the damage;
 - 15.5. the occurrence of the damage is related to an unlawful act committed by the insured person.
- 16. LHV has the right to refuse to pay the insurance benefit if the payee is subject to a respective international financial sanction imposed by the Government of the Republic, the United Nations, the European Union, the United Kingdom or the United States of America.

17. The insurance contract is terminated:

- 17.1. at the end of the insurance period;

19. Withdrawal from the insurance contract

- 19.1. LHV has the right to withdraw from the insurance contract if the policyholder has failed to notify LHV of material facts affecting the insurance risk when concluding the insurance contract and/or has knowingly provided false information, including deliberately avoided reporting a material fact. LHV may withdraw from the insurance contract within one month after it became aware, or should have become aware, of the policyholder's failure to comply with the notification obligation.
- 19.2. If the policyholder fails to pay the premium after the insurance contract has been concluded, LHV may withdraw from the insurance contract until the premium is paid. If the premium paid is less than the amount payable indicated on the Policy, the premium is deemed not to have been paid.
